Summary

Software Developer with 1+ years of experience in **Flutter, Android, and full-stack ERP development**. Experienced with **Dart, Kotlin, Firebase, REST APIs, Frappe, Python, Vue.js, and Postman**, developing production-level mobile applications and interconnected business systems.

Skills

Programming : Java, Kotlin, XML/Jetpack Compose, Flutter/Dart

Frameworks: Flutter, MVVM, Clean Architecture

Backend/APIs: REST APIs, Firebase, Firestore, PHP, MySQL

Developer Tools: Git, GitHub, Android Studio, VS Code, Postman

Experience

Software Engineer

Feb 2026 – Present

Ramwin Tech

Hazaribagh, Jharkhand

- Developing an interconnected **ERP system** using **Frappe, Python, Vue.js, and REST APIs**, contributing to HRMS, Project Management, Sales Management, and Room Book modules.
- Developing and maintaining a production-level mobile application using **Flutter and Dart**, including **Attendance Management, Class logs and Fee Management** modules with REST API integration, data handling, and user-focused mobile interfaces.
- Implemented and tested REST API integrations using **Postman**, and worked with Git and GitHub for version control and collaborative development.

Android App Developer Intern

Sep 2025 – Nov 2025

Zodroid Media Pvt Ltd

Ichaak, Hazaribagh, Jharkhand

- Built a full-stack Android application named **FunMate** using **Kotlin and XML** for frontend development.
- Developed backend services using **PHP** and managed application data using **MySQL**.
- Worked with senior developers on application modifications, debugging, requirements, and issue resolution.

Projects

BrainVault – AI-Powered Knowledge Management App | *Flutter, Dart, Firebase, Firestore, Gemini AI* Aug – Sep 2026

- Developed a cross-platform knowledge management application using **Flutter and Dart** for notes, tasks, folders, reminders, voice notes, and documents.
- Integrated **Firebase Authentication, Cloud Firestore, and REST/AI APIs** for authentication, cloud data management, and **Gemini AI** features including note generation and content organization.
- Implemented **Riverpod** state management and local persistence to support modular architecture and offline-first data access.

Education

Master in Computer Applications

July 2026

Vinoba Bhave University, Hazaribagh

SGPA: 8.9 / 10

Bachelor in Computer Applications

August 2024
